PS C:\Users\raghu\OneDrive\Desktop\python_test> python load_display_save.py --image test_image.png

Step 1: Setting up command-line arguments...

Image path provided: test_image.png

Step 2: Loading image from disk...

Image loaded successfully!

Step 3: Examining image properties...

Image dimensions:

- Width: 400 pixels

- Height: 400 pixels

- Channels: 3 (BGR color)

- Total pixels: 160000

Step 4: Displaying image on screen...

(Press any key on the image window to continue)
